

INSECTS TRAPS

INSECTS MONITOR MINI E MIDI

Glue board against crawling insects

CHARACTERISTICS

Masterbox Insect Monitor is a glue board against crawling insects in propylene, resistant and versatile, perfect to create fixed monitoring spots.

Masterbox Insect Monitor glue boards are designed to monitor cockroaches and crawling insects in general.

Masterbox Insect Monitor Mini and Masterbox Insect Monitor Midi can be used in combination respectively with our Masterbox Mini e Masterbox Midi in order to create a double monitoring spot in one station.

Inside the above bait stations can be used both Masterbox Insect Monitor Mini and Masterbox Insect Monitor Midi.
