

BAIT STATIONS

MASTERBOX MIDI® Rodent bait station

CHARACTERISTICS

MASTERBOX MIDI is a provider of rodenticide baits made from strong plastic material which is resistant to atmospheric agents. Thanks to its folding clasp and its fastening systems, it is a great way to create particularly safe power stations protected from impacts and tampering.

APPLICATION

MASTERBOX MIDI is designed to create bait points protected from dust, dirt, moisture. Of compact design and noninvasive, is suitable for the distribution of rat poison bait whether in paraffin blocks or fresh bait.

This box can be used for rodent control programs conforming to systems HACCP, in internal areas (where there is no production or handling of food substances) and external in civil, industrial (food companies) and domestic areas.

The regulator meets the required characteristics Ministerial Ordinance of 10 February 2012 (mandatory use of a work station with security key for the administration of rat poison bait).
