

# DISINFECTION

## NEBULIZER®

### automatic hand sanitizer dispenser

#### CHARACTERISTICS

Nebulizer® is an automatic hand sanitizer dispenser that guarantees high standard of hygiene: the distribution of the nebulized product takes place via photocell and therefore without any contact with external objects.

Placing your hands under the device, 1 ml of solution, enough to completely disinfect both hands, is nebulized immediately and automatically. Rub the hands for about 20 seconds until they are completely dry.

Nebulizer can be used in restaurants, bars, pizzerias, hotels, canteens, butchers, food shops, bakeries, dairies, beauticians, hairdressers, analysis laboratories, hospitals.
