## AIR CONTROL CLASSIC®

Aerosol deodorant for environment

## CHARACTERISTICS

Air Control aerosol deodorant, with its particular formulation, neutralizes bad odours thanks to a special molecule that eliminates them and pleasantly perfumes the environment for a long time.

Given its characteristics, Air Control deodorant can be used in different environments such as offices, halls, hotel rooms, public places, restaurants, bars, toilets, gyms, changing rooms and in general in all places where you want to eliminate unwanted odors and create a pleasantly scented atmosphere.

**Each can delivers up to 3000 sprays.**

Air Control is currently available in 19 different and delicate fragrances:

bouquet, jasmine, spring, lavender, vanilla, lemonfresh, esoticfresh, orange, pine, green apple, mint, strawberry, cinnamon, fern, coffee, green tea, melon, fresh linen, peach and verbena.

## MODE OF USE

Air Control aerosol deodorant has been designed for use with the automatic diffusers. It can guarantee a continuous and optimal perfuming and sanitizing action.

The special metered valve delivers a sufficient quantity of deodorant enough to perfume rooms around 50 m<sup>2</sup>.

A single 250 ml bottle guarantees 3,000 sprays, therefore, setting the diffuser to work every 15 minutes and for an operating time of 12 hours a day, the can will last about 60 days.

## NOTE

For correct use of the product, strictly follow the instructions on the label.
