

# INSETTICIDES

## AIR CONTROL S®

Insetticida aerosol a base di piretro naturale

**TARGET:**

- FLYING INSECTS

Registration of the Ministry of Health: N. 19.778

Composition	
Pyrethrum Extract 50%	3,5 %
Piperonyl butoxide	16 %

**CHARACTERISTICS**

AIR CONTROL S is an insecticide based on pyrethrum for use with special electronic automatic diffusers. It is an useful remedy against flying insects and it has an immediate knock-down effect for flies, mosquitoes, tiger mosquitoes, moths, etc.

AIR CONTROL S is suitable for the disinfection of local, domestic and civil areas ( for example houses, living rooms, toilets, meeting rooms, schools, communities, canteens, shops, workshops, warehouses, food industries, hotels, restaurants, bars, barracks, stables, animal shelters, transportation such as ships, aircraft, trains, buses, motor homes, etc.).

The repellent effect of pyrethrum extract can help to prevent the infestation of the treated locals from insects.

**MODE OF USE**

Insert the can into the automatic dispenser and activate it following the instructions in the package.

For best results it os better to put the electronic diffuser securing it to a wall or resting it on a surface at least two meters from the floor and 30 cm from the ceiling.

AIR CONTROL S is released at programmable intervals from 7.5 to 30 minutes in very small quantities, thus ensuring a constant protection from insects. The metered valve allows to escape 75 mcl (0.075 ml) for each spray.

A 250 ml can can guarantees 3,000 sprays if it works 24/7 for 4 weeks at an interval of time of 15 minutes. The system is designed for the control of insects in environments with dimensions up to 45 m².

AIRCONTROL S can also be used manually: keep the can upright, press the nozzle and spray in the center of the room. For a medium sized environment does not exceed a vaporization of 5-6 seconds.

**PRECAUTIONS FOR USE**

Do not use in places where there are aquariums. The non-covered foods, prepared or in preparation, should be located more than 3 meters away from the can.

**WARNINGS:** read the label before use

**NOTE:** CONFIDENTIAL INFORMATION FOR DOCTORS HYGIENISTS, VETERINARY.

Technical data	
Target	flying insects
formulation	aerosol insecticide ready-to-use
Packaging	6 pcs of 250 ml in cartonbox of 48 pcs
