MASTERBALLS

LURE FOR RATS AND MICE

Features

Orma's Masterballs is a lure for rodents, non-toxic and completely allergen-free in the form of gel spheres soaked in an aqueous solution that release a powerful aroma into the surrounding environment.

With its watery formulation, Masterballs exerts an intense recall action against murids that are able to perceive sources of liquids at great distances.

Masterballs, with its practical form in spheres, represents the ideal solution for a conjugated use with the snap trap (Code 145-TR, 145-RA, 145-MI) with other capture devices, or to enhance the attractive effectiveness of the gluing devices. Masterballs can be used in food companies, warehouses, supermarkets, storage platforms, mills, etc.

Packing

400g jar in 6-piece carton.
