

SATURN

UV FLY TRAPS against flying insects

Characteristics:

Saturn attracts and efficiently catches flying insects (flies, mosquitoes, flies, moths, etc.). Made of painted sheet, Saturn mounts two 15W T5 UV neon tubes and must be installed at a height of about 2-3 meters hanging on the wall horizontally or vertically. The large surface of the glue plate makes it effective for spaces of about 100 square meters, Saturn is equipped with magnetic closure for a quick replacement of the plates and lamps. Saturn complies with food hygiene regulations (HACCP).

Technical features:

Protection Area: 100 m²
UV-A lamps: 2 x15W
Power supply: 220 VOLT 50HZ
Power: 15 W
Cable length: 2 m
Complies with EC regulation
Material: Painted sheet metal
Warranty 2 years

Spare parts

Replacement lamp: 215-15V-T5 and 215-15V-T5-SP
