

DISPENSER

AIR FREE®

aerosol automatic dispenser

CHARACTERISTIC

Air Free is an imported automatic dispenser, reliable and cheap.

Compatible with any type of aerosol on the market, Air Free can be used in any type of environment.

It should be installed at a height of about 2.5-3 meters, in a position that could favor the homogeneous distribution of the product dispensed, thanks to air currents.

One Air Free dispenser is enough to protect against insects and scent environments of 180-200 m³.

The dispenser works with n. 2 AA batteries that will last about 6 months.
